There are so many jobs out there, and you're bound to find something that's right for you! You might think that work doesn't sound like fun, but that's not necessarily true. The key is to find something that you like doing, and work hard at it. Once you get the right education and some experience, work can be fun and rewarding. (If you can't find it, you can make it.) You're never too young to start working toward a career. Do you want to be a creator of video games? Start learning about computers now! Are you interested in designing cool letters and logos? Get busy drawing and coloring, and learn some computer skills, too! Are you thinking about being a fire fighter or a police officer? Get strong, and try to be smart!
